

Please Provide a Tin-Can

So your child can make a Tin-Can DrumKit

1) We need an ordinary tin-can- not one with a ring pull.

2) Open and empty the can with a normal tin-opener:

Very important:

Carefully check there are no sharp edges inside the top of the can by pressing gently and slowly round with your finger!!

If there is a small sharp stub of metal left, go over the area again with the can-opener until it disappears.

3) Please clean and dry the can,

4) Send it in in a plastic or paper bag,
with your child's name on it- so it can be quarantined.

Please return can by __/__/__ at the latest.
Many Thanks!!

If you have time to send in a spare can or two,
it may help other children!!
