

Beautiful World

Verse 1

If we looked, from space to earth,
We'd see what the world was worth.

Oceans blue and land so green
Most precious thing we've ever seen.

Verse 2

Maybe we, should take more care.
of the land, the sea the air.
If we don't, stop driving cars,
will we have to move to Mars?

Chorus

We, want to stay here,
Breathing fresh air,
In our Beautiful World.

Verse 3

What will we, have for our tea,
when there's no fish in the sea,
If we cut down all the trees,
how will we have air to breathe?

Verse 4

(To)-gether we, must find a way, fu-
ture's not so far away,
If we don't fix things soon,
will we all fit on the moon?

Chorus (x2)

We, want to stay here,
Breathing fresh air,
In our Beautiful World.
